PP BASKET

WWW.CORTEXPLASTIC.COM

CORTEX PLASTIC®

Founded in 2003, located in Caotun, Nantou, Taiwan, CORTEX PLASTIC CO., LTD. is a manufacturer specialized in PP woven products. The main products are PP plastic baskets.

Our products adopt the integrated production processes starting from raw material production, mold fabrication, design and development, manual weaving, to packaging and shipping, the production line is supervised personally and the quality is controlled by the team assembled from professionals in various departments, and with the spirit of excellence and constant research and development for product improvement and production technology enhancement, our company is now an excellent professional manufacturer in Taiwan.

WASHABLE!!!

The target of CORTEX PLASTIC® is to provide the consumer market with high quality PP baskets, continue with product innovations through continuous research and development for production facility and technology enhancement, and refine the capability of design and development. In the meantime, CORTEX PLASTIC® is to maintain products' international competitive edge with long-term participations in international household product exhibitions, acquiring the latest market information. Base on the target of global market, company hopes to cooperate with various distribution companies for mutual developments and create business opportunities.

CORTEX FIBER®

CORTEX PLASTIC is the first factory to manufacture plastic rattan-imitating material with PP material and food grade pigment. The manufactured plastic rattans have many diameters, all with natural grains and matte textures just like the real rattan and bamboo and the surface feels dry and smooth, scratch free; the characteristics of CORETEX FIBER®.

For material applications, the production is mainly based on Polypropylene, PP for short, environmentally friendly material, toxic free, and recyclable. It can withstand low temperature of -20 degree C to high temperature of 120 degree C, highly flexible, compression resistance and uneasy to deform, washable, mildew free, CORTEX FIBER® passes food safety inspections and regulations in different nations, safe to come into direct with food.

Therefore, baskets, different shapes and sizes, woven with plastic rattan have both the natural qualities and water resistant characteristic to enhance its practicality.

The PP baskets made from plastic material have a wide range of real life applications; they can be differentiated to markets of business and household application.

- **Business market:** bread display basket for bakery store, table-top pastry and cutlery basket for restaurant, and laundry basket, spares storage basket, and storage basket for hotels.
- **Retail market:** suited for household uses like housing basket, storage basket, laundry basket, and trash can, exceptionally good for use in bathroom and any high moisture and moldy places.

Through research and development, the PP basket achieves the natural textures of rattan-imitating and bamboo products and improve on defects of non-water resistant and moldy; It combines benefits of high quality appearances, environment friendliness, and extended product lifespan, which makes it a product with tremendous future prospects.
